

DANNÉ
Montague-King®

The Science of the Skin Elevates NZ Therapists?

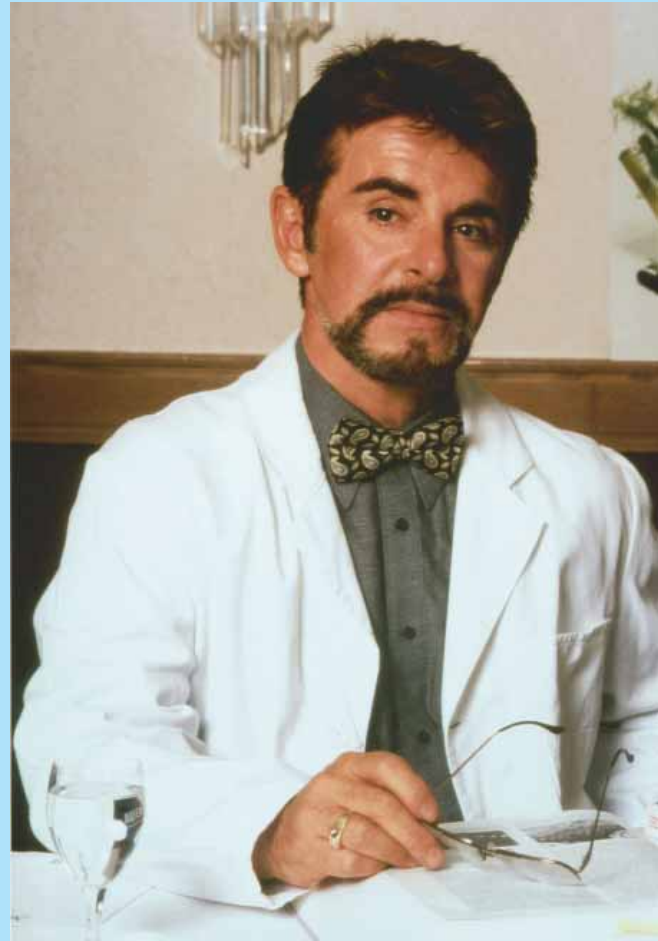

Dr King was among the first scientists to recognize the power of enzymes to hydrolyse the skin and also the first to develop a skin rejuvenation system that understood the importance of offering skin cells' nutrients and chemistry they could recognize. An approach that has gained worldwide acclaim for its ability to match an individual's biochemistry with the appropriate skin therapy.

"Imitating Nature for Natural Results" has been the basis of the Danné concept for more than 30 years. By combining state of the art botanical science with innovative technology, Dr King has created one of the most advanced AntiAgeing skin care systems in the world.

This powerful and exciting skin care program is based on the principle that skin cells respond positively to chemistry they recognize and can immediately benefit from increased longevity.

Combined with the philosophy of Remove, Rebuild, Protect and Maintain the Danné System is undoubtedly at the forefront of skin science and revision.

Dr King's interest in skin care began at an early age after suffering with severe bouts of acne, when he used commercial cosmetic products with little success. Searching for a solution, Dr King studied natural pharmacology and developed his own marine and botanical formulations to enable him to begin treating his own skin. He achieved incredible results and this marked the beginning of his pioneering research in all aspects of skin rejuvenation. Today the Danné concept is taught at training and research facilities in more than 20 countries around the world including New Zealand.

Danné M. King

The Danné System of AntiAgeing and Skin Revision enables therapists to gain vital knowledge, power and confidence unlike most other common cosmetic skin care 'ranges'.

Make a change for the benefit of your future and become a Danné Therapist.

Contact us at the NZ Beauty Expo, stand No 7 to pick up your Skin Science package and discuss how your clients can benefit from New Zealand's most powerful Anti-Ageing System.
